

North Adams Street Water Main Nighttime Construction

**Project
Description:**

City contractor, *Mid-Atlantic Utilities, Inc.*, will be replacing the water main along North Adams Street at the West Middle Lane intersection. A neighborhood advisory dated June 6, 2012 was mailed informing residents and businesses about the upcoming water main construction. Due to traffic and the need to shut off the water main, a small section of the construction project will be completed at night between 8 p.m. and 5 a.m.

Night time construction is scheduled to begin the evening of Wednesday, July 25, and will conclude the morning of July 26, weather permitting. The work will involve removing and replacing approximately 100-feet of water main at the North Adams/West Middle intersection. The work area will be prepared during the day to ensure construction duration and noise is limited at night. During the construction process there will be normal construction machinery noise. We apologize for any inconvenience this may cause.

A separate notice will be mailed to those properties whose water will be shut off during the night.

Purpose: To remove and replace 100-feet of water main at night.

Location: Intersection of North Adams Street and West Middle Lane.

Timeline: Work is scheduled to be completed in one night, beginning the evening of July 25 and will conclude the morning of July 26, weather permitting. If it rains on the 25th, the work will be scheduled the following night.
